

AESI EVENT 04: AERO-MODELLING WORKSHOP FOR CHILDREN (SESSION - 01)**16th JUNE 2019, AROMI, NDA ROAD, PASHAN, PUNE - 411 021**

AeSI, Pune Branch had organized an Aero-Modelling Workshop for Children at Armament Officers Mess & Institute (AROMI), NDA Road, Pashan, Pune, on 16th June 2019 between 0900 hrs to 1300 hrs. Shri. Madhav Kare and his team were invited as the trainers for this workshop. Shri. Madhav Khare is the founder and trustee of 'Shastravahini', an organization which works for developing and creating awareness about science and technical skills. He is also the Chief Editor for 'Shastrabodh', a project periodical. He has received National award from NCERT, for 'Vimane Udwa-Yuddhachi'. He has also received the state government award for his books, 'Vimanachya Vishwat' and 'Kagdachi Karamat'. Currently, he is into software development business, as well, he also produces science toys, especially aero-models.

The workshop was open to all children between 05 to 15 years of age. Advertisements for the workshop started on 12th June 2019 and by the same day evening around 60 children had registered for the workshop. Due to limitation in number of flight kits, the maximum registrations were restricted to 75 only. More than 100 children had sent-in their details for registrations. All entries were recorded in a separate database and the first 75 children were invited for this session of the workshop. Out of the 75 participants, 49 of them were the children of Non-AeSI Members and 26 of them were the children of AeSI Members. Again, out of the 75 participants, 52 were from ARDE, 18 were from HEMRL, 01 from R&DE (E), 01 from Office of the DG (ACE), 01 from AROMI & 01 from MES. It was a free workshop for AeSI Members and a nominal fee of Rs.100 /- was collected from Non-AeSI Members.

The participants reported at 08:30 for registration. Out of the 75 registered children, 73 children reported for the workshop. Identification Card, Limited Tool Kit and Flight Kits consisting of 05 Paper Planes, 2 Foam Planes & 01 Plastic Planes were given to each child. The session started at 0900 hrs. Shri. Madhav Kare explained the history & principles of flight

in a much simpler way to the children with appropriate videos to entertain them. He also demonstrated the operation of various types of paper planes starting from a basic paper / foam cut-out model to a RC Plane which fascinated the children to great extent. The theoretical session extended for an hour, followed by a short break of 30 mins. Snacks were arranged for the participants by AROMI. The hands-on session started after the short break and extended until 1230 hrs, where-in the children were offered hands-on experience to assemble 03 types of flight models. Officers from Aerodynamics & Ballistics Group of ARDE volunteered to teach & train the children. Later, the children were allowed to fly & experiment their models in the Lawn area of AROMI. The children were handed over to their parents / guardians at 1300 hrs. and the session concluded with presentation & vote of thanks to the trainer team and the organizers. The photographs of the event and the feedbacks received from the participants are shown below:

Advertisement Flyer:
